MODEL VEHICLES

SCANIA

MODEL VEHICLES

Scania pride doesn't end when the working day is over. So wherever you are, and whatever you're doing, let your Scania pride shine through.

Collectibles for grown-ups

Scania's wide range of model vehicles are superbly made mini imitations of the real thing, with authentic details that are a model collector's dream. There are around 40 mini trucks, buses and vintage cars in the Scania model portfolio. "We want to show vehicles from our various segments such as long haulage, urban and construction, as well as from our heritage", says Gun Fredriksson, Product Manager Corporate & Franchise Products and Model Vehicles.

They come in two different scales (1:50 and 1:87) and have been developed in cooperation with the designers from our R&D department that work daily with developing our actual trucks. Their input is invaluable in terms of accuracy and the models are based on the very same CAD models that are used for the real trucks. The popular toy model vehicles are detailed plastic models that come in the two scales 1:25 and 1:16.

From a detailed product idea until we have the model vehicles on the shelf it usually takes 8-12 months. The production of the detailed model vehicles is a meticulous precision work demanding skilled craftsmanship.

New for 2019 are two new model trucks powered by gas; one being a garbage collector truck and the other a small distribution box truck. In honour of the V8's 50th anniversary, we also have two new models displaying this legendary truck. One in classic V8 red with V8 anniversary golden striping, which is also available for full size trucks in the Scania Vehicle Accessories styling assortment. And then a real eye catcher: "One of the V8 truck's exterior will come in gold finish", says Fredriksson and smiles: "There is a first time for everything."

Enjoy!

Gun Fredriksson
*Product Manager Corporate &
Franchise Products and Model Vehicles.*

Scale 1:50 model vehicles are metal scale models of highest quality. Scale 1:87 model vehicles are detailed plastic or metal models. Collector's items. Not suitable for children under 14 years. Model vehicles Scale 1:16, 1:25 are detailed plastic models. Not suitable for children under 36 months of age as small parts could be inhaled or swallowed.
